

QUALITY POLICY

This organisation will endeavour to provide its customers with products and services that meet their respective expectation of order requirements, ensuring minimum risk to both customer and company.

In order to meet the obligations of this policy, the 'Top' Management will:

Promote an environment of continual improvement throughout the company including the use of measurable objectives for each process.

Create an atmosphere within the working environment, which encourages individual employees to achieve excellence in completing their respective tasks.

Ensure that any applicable statutory, regulatory and/or legal requirements are understood and adhered to.

Ensure that applicable quality system information is regularly reviewed, to promote effective and continual improvement of the quality system, and the business, through management review of its quality objective achievement.

Ensure preventive/corrective measures are implemented where identified, and monitored accordingly

Regularly review the quality policy for its continuing suitability in meeting the requirements of the customer, applicable statutory and regulatory requirements, and the requirements of AS 9100 & ISO9001 as appropriately applied to the business.

Within this framework it is a mandatory requirement of all employees that they understand and work in accordance to, and comply with, the requirements of the company's Quality Management System.
